

CLIA WAIVED!

# Five reasons why you need the Cholestech L·D·X<sup>®</sup> System.

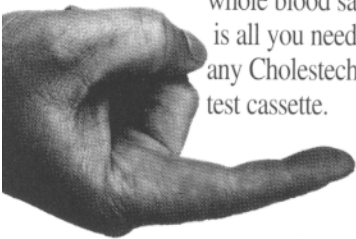

Now, it's easy to get accurate Lipid Profile results in under five minutes!

**1. Small, tough, and portable.**  
The Cholestech L·D·X System is perfect for the office or for other point-of-care applications. The analyzer is factory calibrated, easy to use, and even provides a sophisticated cardiac risk assessment!

**3. Accuracy you can count on.**  
No Surprise. The Cholestech L·D·X System gives you the same level of accuracy and precision that you would get from a clinical lab.

**2. A fingerstick is all it takes.**  
Just a single 35  $\mu$ L whole blood sample is all you need to run any Cholestech L·D·X test cassette.

**4. Get multiple test results on one cassette.**  
Now get quick, convenient lipid panels on a single test cassette. Choose from Total Cholesterol, a Total and HDL Cholesterol Panel, or a full Lipid Profile, and all cassettes are available with Glucose.

**5. Get test results in under five minutes!**  
Our quick, three-step procedure eliminates pre-treating or centrifuging samples so your staff saves time. Which means it's easier to reward behavior, change diet, and monitor lipid-lowering drug dosage.
