

Two tests for the price of one!

ALT•AST

Now, for the first time, Cholestech customers can obtain a full Lipid Profile and monitor liver function with both ALT and AST results in-office, on one machine.

Get the information you need to monitor liver function and make any necessary adjustments in a single patient visit. No outside labs,

no waiting for results and no patient callbacks!

ALT•AST test cassettes run on your Cholestech LDX® System so you know you can count on them to be CLIA-Waived, requiring only a single fingerstick, delivering lab-accurate results all in just 5 minutes!

Results are reimbursable and you are getting both results for the price of one cassette. Better for your patients, your practice and your bottom line – the new ALT•AST test cassette from Cholestech.

**Two for one
liver enzyme testing –
what are you waiting for?**
