

Heart Disease Prevention.
Finally, an Easy Way to Do What's
Best for Your Business...

and Even Better for Your People.

Take Action with On-Site Cholesterol Testing

With the Cholestech L•D•X[®] System, you can quickly identify people who are at risk for heart disease—the nation's #1 cause of death. You can also identify people who may have diabetes, or who may have problems with their liver function. The Cholestech L•D•X System provides this valuable, lifesaving information in only 5 minutes, so you can counsel your people to take immediate action against these devastating conditions. And the Cholestech L•D•X System allows you to reduce healthcare costs when you provide these testing services. So you can invest in your business while giving your people the one benefit that can last a lifetime—better health.

Hospital Community Services

Want your facility to generate extra revenue—and community goodwill, too? The Cholestech L•D•X System gives you a fast, easy way to do both. You can let your community know if they're at risk for heart disease, then provide referrals to your qualified physicians. You'll benefit from the testing and referrals—and so will your community!

Occupational Health

How much does it cost to care for an employee who suffers from heart disease or diabetes? 2,000 times more than the cost of one cholesterol or glucose test! By monitoring your employees on-site with the Cholestech L•D•X System, your company can realize substantial cost savings and improved productivity by reducing insurance costs and employee downtime. You'll also benefit by showing your employees that you care about their health and well-being.

Anywhere and Everywhere

The Cholestech L•D•X System is ideal in any venue where you want to provide lifesaving health information for your people *and* ensure the success of your business.

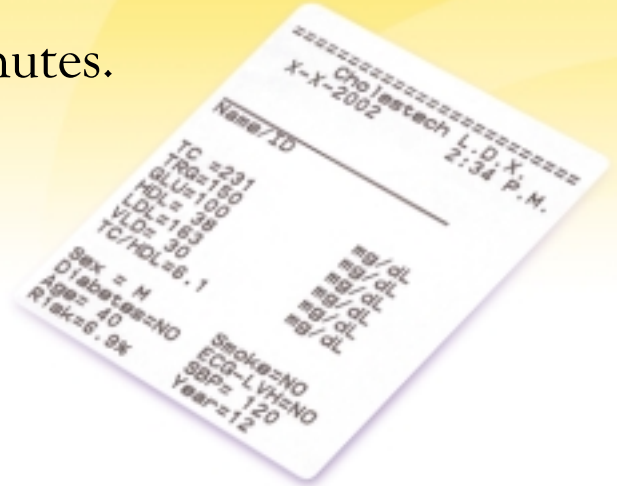

- Health screening services
- Public health departments
- Fitness centers
- Groceries
- Pharmacies, and more!

Cholestech L•D•X[®]
YOU'LL SEE THE RESULTS

The Cholestech L•D•X[®] System Lets You Offer Complete, On-site Cholesterol Testing...

In Just 5 Minutes.

- 1. Complete lipid profile and more.** Total Cholesterol (TC), Triglycerides (TRG), HDL (“good”) and LDL (“bad”) Cholesterol, Glucose (GLU), and ALT (liver function test).

Available Tests:

- TC
- TC/HDL
- TC/Glucose
- TC/HDL/Glucose
- Lipid Profile
- Lipid Profile plus Glucose
- ALT

- 2. Small, portable design.** The Cholestech L•D•X System goes wherever you want to offer on-site testing—in the office, the hospital, and everywhere else.

- 3. Requires only a simple fingerstick.** Just one drop of whole blood is needed to run any Cholestech L•D•X test cassette. And the system is **CLIA-waived**, so no special training is required.

- 4. Lab-accurate results.** Results as precise as the clinical lab, which is why the Cholestech L•D•X System is the preferred point-of-care cholesterol monitoring system in thousands of physician offices.

- 5. Results in 5 minutes.** The easy, 3-step procedure saves time by allowing for immediate feedback—right on the spot!
