Test Name	Results	Range
Hemoglobin A1c*	6.4 %	4.3 - 7.0%

Hemoglobin A1c test result indicates you are in the non-diabetic normal reference range

The American Diabetes Association recommends that the goal of therapy for diabetics should be a Hemoglobin A1c of less than 7%. Hemoglobin A1c values greater than 8% may suggest treatment reevaluation by your physician. Values of 7-8% may be acceptable but only in accordance with your physician's recommendations.

*Tests are performed by either:
HealthPoint Diagnostix, Inc. Lincolnshire, IL 60069
or
New Century Diagnostics, Buffalo Grove, IL 60089

Test results do not make a diagnosis of any kind and should never replace an office visit with your doctor.

Never adjust your medications before you consult with your physician.
